### Pioneer DJM600 DJ Mixer

\$75.00

#### **A pro-level mixer packed with automated functions and effects - The Pioneer DJM600 DJ Mixer!**

It's a four-channel, crossfader mixer with CD/line, mic, phono, and return inputs; send, RCA master, XLR master, record, phones, and booth monitor outs; three bands of EQ on each channel; channel peak meters; track faders and trims; an independent monitor switch (enables independent or simultaneous monitoring of channels, mic, master, and effects); and more. Automatic functions include auto BPM measurement, auto beat sampler, and auto beat effector. Other functions include fader start play, headphone monitor split, a choice of three crossfader curves, and talk over.

#### **Features:**

- Auto BPM counter measures and digitally displays BPMs
- Auto Beat Sampler lets you automatically sample your favorite grooves and play them back at the touch of a button
- Sampler functions include single play, loop play, and stretched loop play
- Auto Beat Effector links to the BPM and adds effects to each channel, the mic, or master, independently
- Effects include delay, echo, auto pan, auto trans (periodically cuts the sound), auto filter (varies sound color), flanger, reverb, and pitch shift (+/-1 octave)
- Effects send/return allows the addition of outboard effects
- Track trim control allows use of diverse sound sources
- Booth monitor output allows the sound volume to be independently controlled at the upper surface
